## Experience

### Frontend Developer intern

**Dec 2024- Mar 2025**

#### Heart it out

Currently i am developing responsive, user-friendly websites like: Event pages , Academy page , Reco engine , Feedback form , Therapist profile , multiple forms in Elementor , News letters , blogs etc , using HTML, CSS, JavaScript, Jquery , API integration , Bootstrap5, WordPress, Vue.js, Tailwind CSS, Elementor and Oxygen builder. I collaborate with the team to enhance UI/UX , ensure seamless responsiveness across devices. Through this role, I am gaining hands-on experience in front-end development and modern web technologies.

### Fullstack Developer Intern

**Oct 2024-Dec 2024**

#### Unified Mentor

Here I developed projects like:

E-Gram Panchayat – A web-based system built using HTML, CSS, JavaScript, Bootstrap 5, React.js, and jQuery to digitalize local governance services.

Pet Simulator – An interactive application designed with HTML, CSS, JavaScript, Bootstrap 5, React.js, and jQuery to simulate pet care and feeding.

### Frontend Developer Intern

**Jun 2024 – Sep 2024**

#### Salesqueen

I developed fully responsive websites like Smart Hospital , Asset management , HR record , Interview schedule , Candidate profile , Recruitment channel etc using HTML, CSS, JavaScript, Bootstrap 5, and jQuery. Collaborated closely with the development team and testers to ensure high-quality, user-friendly web experiences.

### Web Developer Intern

**Apr 2024 – May 2024**

#### Solar Secure

I developed several small projects like todo-list, Quiz games , Covid status , Form validation , Counter ,Calculator etc using HTML,CSS ,JavaScript, Bootstrap5 , AJAX , Jquery and a fast food E- Commerce website using Node JS. Gained hands-on experience in front-end and back-end development

### Web Developer Intern

#### Oretes

I developed a COVID-19 tracking website with features like real-time case tracking, vaccination slot availability, ICU ,oxygen cylinder and hospital status, with essential COVID-19 information and prevention . Built using HTML, CSS, JavaScript, Django, and Bootstrap 5, this project focused on providing users with critical health data and resources .

## Soft-Skills

- Adaptability
- Team Collaboration
- Continuous Learning
- Active Listening

## Reward

- Director Award
- College level Decoding Award

## Projects

### Portfolio

My personal portfolio using React , designed to showcase my projects, skills, and experience in a visually engaging and highly responsive manner. The portfolio features smooth animations, interactive UI elements, ensuring a seamless user experience across all devices.

### Heartit out Jiya Therapist

Jiya Therapist Finder is an interactive web app that helps users find the ideal therapist based on personalized input. It features secure OTP-based authentication to ensure privacy and tailored recommendations.

### Heartitout Blog page

The Heart It Out Blog Page features expertly curated articles categorized by mental health topics such as anxiety, depression, OCD, and overall wellbeing. It offers readers easy navigation and insightful content tailored to their specific concerns.

### Interior design website

Developed an Interior Design Website using Vite, Bootstrap, Tailwind CSS, and API calls. The platform features a modern, responsive design , showcase interior styles, inspirations, and designs.

### Text Editor

Developed a Text Editor using React, allowing users to write and manipulate text efficiently. Features include conversion to uppercase/lowercase, speech synthesis, text clearing, and real-time word count etc. Designed with a simple, user-friendly interface for seamless text processing.

### Academic Projects-

#### COVID 19 Tracking Website

Using HTML , CSS , JavaScript , Django , Bootstrap5

#### Air Quality Index

Using Python , MatLab

#### Railway Reservation

Using Java

#### Library Management

Using C++ , C

## Education

### Master of Computer Applications

Sambalpur University Institute of Information Technology  
CGPA - 9.4

### Bachelor of Computer Applications

Vikash School Of Business Management  
Percentage = 79
